Recruitment Examination for Multi-Purpose Worker (Male & Female) : 2024

SET - A

Time : 2 hours

Total Marks : 85

Application Identity/Roll Number										
Name of Candidate:										
Date of Birth:						Date of Examination:				
Centre of Examination:										
Signature of Candidate						Signature of Invigilator				

READ INSTRUCTIONS CAREFULLY BEFORE ANSWERING THE QUESTIONS

- Duration of examination is 2 hours (120 minutes) from 11:00 A.M. to 1:00 P.M. No extra time will be allowed to any candidate including specially able (PwD) candidates, if any.
- Any conduct of candidate that is found to be inappropriate, unruly, disturbing or disrupting, or anyway detrimental to or violative of the integrity, sanctity and secrecy of the examination process, will be considered as a deliberate recourse to unfair means, and appropriate disciplinary and/or legal action shall ensure against the candidate concerned.
- Total number of multiple choice questions (MCQ) is 85. Each question carries 1 (one) mark.
- 0.25 marks will be deducted for each wrong answer.
- Each MCQ will have five options, and alongside each option, a blank response-circle is appeared. Out of the aforesaid five options, anyone of the first four options is the correct answer. The fifth (the last in order) option – “Do not know” – shall be darkened if you do not know the correct answer.
- Candidates must darken any of the five options (response-circles) compulsorily in respect of all the 85 questions; skipping any question without darkening any of the five circles appearing alongside the options shall invariably lead to a penal deduction of 10 marks from the candidate’s overall score.
- Darken the whole circle using exclusively black-inked ball pen against the answer opted for. Any other marks to denote the selected option /answer shall not be considered for evaluation. Example :

What is the name of your country?

- | | | | | | |
|---------------|-----------------------|--------------|----------------------------------|--------------------|-----------------------|
| A. China | <input type="radio"/> | C. India | <input checked="" type="radio"/> | Mark if don't know | <input type="radio"/> |
| B. Bangladesh | <input type="radio"/> | D. Sri Lanka | <input type="radio"/> | | |

- Candidates shall not make any marks, draw any picture, image or words, symbols, etc., which do not have any relevance to or comply with the foregoing instructions. Any violation of the instructions may lead to non-evaluation of the answer script.
- No erasing, scratching, masking, etc., to modify any answer shall be allowed.
- An answer once made by darkening the relevant circle shall be final and absolute. Any instance of violating the instruction shall lead to an outright rejection of the answers so altered.
- No candidate shall ordinarily be allowed to leave examination hall during examination. No candidate is allowed to go out for lavatory purpose within first one hour of the commencement of examination, and half an hour of the closure of examination. Same candidate should not be allowed to go outside twice for the said purpose. Two candidates should not be allowed to go outside lavatory purpose at the same time from same hall.
- Warning bell to be ring in the Examination Centres for 5 (five) times; viz. 15 minutes before the commencement of examination, at the time of starting the examination, elapse of one hour during examination, 15 minutes before the end of examination, and at the end of examination.

1. Which of the following dimension is **NOT** mentioned in the WHO definition of HEALTH?

(A) Physical dimension	(B) Mental dimension
(C) Spiritual dimension	(D) Social dimension

2. Which of the following is **NOT** a behavioural determinant of health?

(A) Smoking	(B) Diet
(C) Socioeconomic condition	(D) Physical activity level

3. The health services in any health care system may be of –

(A) Primary care level	(B) Secondary care level
(C) Tertiary care level	(D) All of the above

4. The primary health care can be defined as the essential health care based on

(A) Practical methods.	(B) Scientifically sound technologies
(C) Socially acceptable methods and technologies	(D) All the above.

5. The first contact of individuals with health care system is-

(A) Primary care level	(B) Secondary care level
(C) Tertiary care level	(D) All of the above

6. Which of the following centre is called First Referral Unit?

(A) Primary health centre	(B) Community health centre
(C) Sub-divisional hospital	(D) District hospital

7. Which of the following is true for a ASHA worker?

(A) ASHA worker supervises work of Anganwadi workers	(B) ASHA worker conduct safe deliveries
(C) ASHA worker covers a population of 400-800	(D) ASHA worker should be a woman with formal education upto class 8.

8. Which of the following services are given at a Anganwadi centre?

(A) Health check up	(B) Supplementary nutrition.
(C) Preschool education.	(D) All of the above

9. Explaining an eligible couple on importance of contraception will involve all **except-**

(A) Inter personal communication	(B) IEC
(C) BCC	(D) One way communication.

10. GATHER approach is related to -
- (A) Group dynamics (B) Community organization
(C) Counselling (D) None of these
11. Which of the following is **NOT** a Macro nutrient?
- (A) Carbohydrate (B) Vitamins
(C) Fats (D) Proteins
12. Which of the following nutritional supplement is given along vaccines in National Immunization schedule?
- (A) Iodine (B) Zinc
(C) Vitamin A (D) Vitamin B complex
13. Which of the following method is used in assessing the nutritional status of an under-five child at Subcentre based HWC level?
- (A) Weight of the child. (B) Height of the child.
(C) Weight for height (D) Growth Chart
14. Which of the following is a symptom of Vit A deficiency
- (A) Bleeding gums (B) Bowed legs
(C) Night blindness (D) Anemia
15. Which of the following food items is a good source of iron?
- (A) Meat, fish, green leafy vegetables (B) Yellow fruits
(C) Citrus fruits (D) Milk
16. Name the program under which iron prophylaxis is given to children in India?
- (A) National program for iron prophylaxis (B) National iron deficiency control program of India
(C) National Iron plus initiative (D) National anaemia mukt program
17. What is the most popular prophylactic measure to control Iodine deficiency disorders in India?
- (A) Screening of goitre (B) Iodization of salt
(C) Treatment of Goitre (D) Mass communication on control measures.
18. How many steps of hand washing are there according to WHO?
- (A) 4 steps (B) 5 steps
(C) 6 steps (D) 7 steps

19. Which of the following is **NOT** a criterion for sanitary latrine?
- (A) Fecal matter should not contaminate water.
(B) Fecal matter should not contaminate soil.
(C) Fecal matter should not be accessible to flies, rodents.
(D) Should have proper super-structure and be accessible to water.
20. Which of the following is **NOT** a criterion for safe and wholesome water?
- (A) Free from pathogenic agents (B) Free from harmful chemicals
(C) Free from hardness (D) Pleasant to taste
21. How many categories of biomedical wastes are there?
- (A) 3 categories (B) 4 categories (C) 5 categories (D) 6 categories
22. In which of the following buckets we throw sharp wastes?
- (A) White (B) Red (C) Black (D) Yellow
23. In which of the following buckets we throw infected wastes?
- (A) White (B) Red (C) Black (D) Yellow
24. Which age is considered as elderly / geriatric in India?
- (A) >60 years (B) >62 years (C) >65 years (D) >70 years
25. What is the name of the tele-consultation helpline related to mental health?
- (A) Tele MANAS (B) MANAS health (C) MANOROG (D) MANASIKHELP
26. Which of the following vaccine is **NOT** given at birth?
- (A) BCG (B) OPV (C) Measles (D) Hepatitis B
27. Which of the following vaccine is given at 9 months of age?
- (A) OPV (B) Pentavalent vaccine (C) Measles (D) Hepatitis B
28. How many doses of Vit-A should an under-five child receive as per National Immunization Schedule?
- (A) 6 (B) 8 (C) 9 (D) 10
29. Which of the following vaccine should **NOT** come in contact with frozen ice packs?
- (A) BCG (B) OPV (C) Measles (D) Hepatitis B

30. What is the mode of transmission of polio?
- (A) Air borne transmission (B) Water borne transmission
(C) Vector borne transmission (D) Direct contact
31. What is the mode of transmission of tuberculosis?
- (A) Air borne transmission (B) Water borne transmission
(C) Vector borne transmission (D) Direct contact
32. What is AEFI?
- (A) Adverse effects following immunization
(B) Adverse events following immunization
(C) Adverse effects following intervention
(D) Adverse events following intervention
33. What is the colour of the pack for anti-malarial drug for an adult malaria patient in Tripura?
- (A) Yellow (B) Green (C) Red (D) White
34. Which of the following centre is designated for HIV testing?
- (A) PPTCT centre (B) DOTS centre
(C) DMC (D) ICTC
35. How many sputum samples should you ask a suspected Tuberculosis patient to give?
- (A) Single sputum sample (B) 2 sputum sample
(C) 3 sputum sample (D) 4 sputum sample
36. Destruction of all forms of microorganisms including bacterial spores is called?
- (A) Disinfection (B) Sterilization
(C) Asepsis (D) sanitization
37. Which of the following medicine is available at HWC based Sub centre for management of hypertension?
- (A) Amlodipine (B) Metformin (C) Clotrimazole (D) Aspirin
38. What is the treatment of choice in a case of diarrhoea with some dehydration?
- (A) Home available fluids (B) ORS
(C) IV fluids (D) All of the above
39. What is pandemic?
- (A) Occurrence of number of cases in excess of normal expectancy.
(B) Occurrence of number of cases in excess of normal expectancy over large geographic area.
(C) Continuous presence of a disease in a geographical area
(D) Cases occur irregularly haphazardly from time to time

40. Prevalence of cardiovascular disease in a community means-
- (A) Total number of old cases of cardiovascular disease in a given time frame
 - (B) Total number of new cases of cardiovascular disease in a given time frame
 - (C) Total number of new and old cases of cardiovascular disease in a given time frame
 - (D) None of the above.
41. How do we plot a growth chart?
- (A) Plot Weight of the child in Kg against age in years
 - (B) Plot Weight of the child in Kg against age in months
 - (C) Plot Height of the child in Kg against age in years
 - (D) Plot Height of the child in Kg against age in months
42. Which of the following is a measure of chronic malnutrition in children?
- (A) Weight for age / underweight
 - (B) Height for age /stunting
 - (C) Weight for height / wasting
 - (D) BMI
43. What is the significance - if the weight of an under-five child falls under yellow category in growth chart?
- (A) Normal weight
 - (B) Underweight
 - (C) Moderate underweight
 - (D) Severe underweight
44. What is the significance of- if the weight of an under-five child falls under red category in growth chart?
- (A) Normal weight
 - (B) Underweight
 - (C) Moderate underweight
 - (D) Severe underweight
45. What is exclusive breast feeding?
- (A) Giving only breast milk till 4 months
 - (B) Giving only breast milk till 6 months
 - (C) Giving breast milk till 9 months
 - (D) Giving only breast milk till 6 months along with water.
46. Breast feeding should be continued in a child for a minimum age of-
- (A) 12 months
 - (B) 18 months
 - (C) 24 months
 - (D) 36 months
47. According to article 24, child employment is prohibited till-
- (A) 12 years
 - (B) 14 years
 - (C) 16 years
 - (D) 18 years
48. Which of the following diseases is covered under IMNCI?
- (A) Acute Respiratory tract infection
 - (B) Diarrhoea
 - (C) Malaria
 - (D) All of the above
49. As per WHO, what is the age group of Adolescents?
- (A) 10 to 19 years
 - (B) 10 to 18 years
 - (C) 14 to 18 years
 - (D) 12 to 18 years

50. What is the full form of AFHC related to adolescent health care?
- (A) Adolescent and family health care (B) Adolescent and family health clinic
(C) Adolescent friendly health clinic (D) Adolescent friendly health care
51. By which period of gestation early registration of pregnancy should be ensured?
- (A) By 10 weeks (B) By 12 weeks (C) By 16 weeks (D) By 18 weeks
52. What is the name of the pregnancy test kit provided by Government of India at health and wellness centers at free of cost for pregnancy testing?
- (A) Nirnay pregnancy test kit (B) Nischay pregnancy test kit
(C) Nirdharan pregnancy test kit (D) Khushi pregnancy test kit
53. How would you calculate the expected date of delivery from the last menstrual period (LMP)?
- (A) By adding 10 months to 1st date of last LMP
(B) By adding 10 months 10 days to 1st date of last LMP
(C) By adding 9 months to 1st date of last LMP
(D) By adding 9 months 7 days to 1st date of last LMP
54. What is prolonged pregnancy?
- (A) Pregnancy extending beyond 37 weeks of gestation
(B) Pregnancy extending beyond 40 weeks of gestation
(C) Pregnancy extending beyond 42 weeks of gestation
(D) Pregnancy extending beyond 45 weeks of gestation
55. How many numbers of antenatal visits should be ensured as minimum for a pregnant woman?
- (A) At least 1 visit (B) Minimum 2 visits (C) Minimum 3 visits (D) Minimum 4 visits
56. What should be the average weight gain of a women during pregnancy?
- (A) 6-7 Kg (B) 7-9 kg (C) 9-11 kg (D) 11-12 kg
57. Who is considered as 'elderly primi'?
- (A) First time pregnant at ≥ 28 years (B) First time pregnant at ≥ 30 years
(C) First time pregnant at ≥ 32 years (D) First time pregnant at ≥ 34 years
58. Which of the following laboratory investigation are NOT usually available at HWC-based subcentre?
- (A) Haemoglobin estimation (B) Urine test for albumin and sugar
(C) Rapid malaria test (D) HIV testing
59. Within how many hours of birth the placenta should be delivered?
- (A) Within 15 minutes (B) Within 30 minutes
(C) Within 45 minutes (D) Within 60 minutes

60. What is the cut of level of haemoglobin for diagnosing anaemia in pregnant women?
 (A) <10 mg/dl (B) <11 mg/dl (C) <12 mg/dl (D) <13 mg/dl
61. How many tablets of iron folic acid are to be given to a pregnant women during pregnancy as prophylaxis against anaemia?
 (A) 100 tabs of IFA (B) 150 tabs of IFA (C) 180 tab of IFA (D) 200 tab of IFA
62. At what blood pressure you are going to consider it a high risk pregnancy?
 (A) A BP of $\geq 120 / \geq 80$ mm Hg (B) A BP of $\geq 130 / \geq 90$ mm Hg
 (C) A BP of $\geq 140 / \geq 90$ mm Hg (D) A BP of $\geq 160 / \geq 100$ mm Hg
63. What is low birth weight?
 (A) Birth weight of < 1.5 kg (B) Birth weight of < 2 kg
 (C) Birth weight of < 2.5 kg (D) Birth weight of < 3 kg
64. What vaccine is administered during pregnancy?
 (A) 2 doses of TT (B) 2 doses of DT
 (C) 2 doses of DPT (D) 2 doses of dT
65. What is neonatal period?
 (A) 7 days (B) 28 days (C) 1 month (D) 2 months
66. Name the pelvic organs from anterior to posterior in relation to pelvic floor.
 (A) Bladder, vagina, uterus, rectum (B) Bladder, uterus, vagina, rectum
 (C) Uterus, vagina, bladder, rectum (D) Rectum, bladder, vagina, rectum
67. The graphical record of cervical dilatation and descent of head against duration of labour in hours is called-
 (A) Effacement chart (B) Cervical dilatation chart
 (C) Partograph (D) Effacementgraph
68. What rate of dilation of cervix is considered satisfactory beyond 3 cm dilatation in primigravida?
 (A) 0.5 cm / hour (B) 1 cm / hour (C) 1.5 cm/ hour (D) 2 cm / hour
69. What is second stage of labour?
 (A) Starts from 3 cm of dilatation to full dilatation of cervix.
 (B) Starts from full dilatation of cervix to rupture of membrane
 (C) Starts from full dilatation of cervix to expulsion of fetus.
 (D) Starts from expulsion of fetus to expulsion of placenta with its membranes

70. As per MTP act of India, by which period of gestation, pregnancy can be terminated?
 (A) Upto 12 weeks (B) Upto 16 weeks (C) Upto 20 weeks (D) Upto 24 weeks
71. What is the population covered by a subcentre at plain areas?
 (A) 2000 (B) 3000 (C) 4000 (D) 5000
72. What is the population covered by a subcentre in hilly / tribal areas?
 (A) 2000 (B) 3000 (C) 4000 (D) 5000
73. Type A subcentre is serves all facilities except-
 (A) Registration of pregnancy (B) Antenatal Care
 (C) Conducting deliveries (D) Immunuzation of mother and children
74. Which of the following services is recently added to a HWC based subcentre?
 (A) Screening of NCD (B) Screening for mental health problems
 (C) Screening of Eye and ear problems (D) All of the above
75. Under which scheme new services like Yoga has been added to the HWC based subcentre?
 (A) Swastha bharat scheme (B) Ayushman Bharat scheme
 (C) AYUSH scheme (D) Swastha sachetan scheme
76. What is the primary purpose of stock maintenance in hospitals?
 (A) To increase financial profits
 (B) To reduce the number of patients
 (C) To ensure uninterrupted supply of essential materials
 (D) To monitor hospital staff performances
77. What is the primary document used for issuing stock to hospital departments?
 (A) Stock ledger (B) Indent form (C) Invoice (D) Purchase order
78. Which program primarily do funding on health subcentre operation?
 (A) Ayushman Bharat (B) Swachh Bharat Abhiyan
 (C) National Health Mission (D) 15th finance commission
79. Who is the immediate supervisory level officer of Health Sub centre?
 (A) District Nodal officer (B) Sub-district medical officer
 (C) Medical officer in charge of PHC / CHC (D) Community health officer

80. What is the purpose of Key performance indicators in hospitals management?
- (A) To reduce workload (B) To measure efficiency of services
(C) To focus financial performance (D) All of the above
81. What is the name of the program under which Malaria control and elimination strategies are adopted in India?
- (A) National malaria control program
(B) National anti-Malaria program
(C) National vector borne disease control program
(D) National malaria borne disease control program
82. What are the services/ facilities available under NTEP at HWC based subcentre level?
- (A) Referral of suspected symptomatic cases to nearby DMC
(B) DOTS provision
(C) Documentation and followup
(D) All of the above
83. Name the program under which leprosy patients are given free drugs through HWC based subcentre?
- (A) National leprosy control program (B) National leprosy elimination program
(C) National leprosy eradication program (D) National anti leprosy program
84. What is the new nomenclature (name) given to HWC based subcentre by Government of India?
- (A) Ayushman centre (B) Ayushman Arogya Mandir
(C) Arogya Mandir (D) Ayushman Mandir
85. All of the following non communicable diseases are screened at HWC based subcentre level, except-
- (A) Hypertension (B) Diabetes
(C) Cardiac diseases (D) Cancer

Same candidate should not be allowed to go outside twice for the said purpose. Two candidates should not be allowed to go outside lavatory purpose at the same time from same hall.
- Warning bell to be ring in the Examination Centres for 5 (five) times; viz. 15 minutes before the commencement of examination, at the time of starting the examination, elapse of one hour during examination, 15 minutes before the end of examination, and at the end of examination.

11. How many categories of biomedical wastes are there?
- (A) 3 categories (B) 4 categories
(C) 5 categories (D) 6 categories
12. In which of the following buckets we throw sharp wastes?
- (A) White (B) Red (C) Black (D) Yellow
13. In which of the following buckets we throw infected wastes?
- (A) White (B) Red (C) Black (D) Yellow
14. Which age is considered as elderly / geriatric in India?
- (A) >60 years (B) >62 years (C) >65 years (D) >70 years
15. What is the name of the tele-consultation helpline related to mental health?
- (A) Tele MANAS (B) MANAS health
(C) MANOROG (D) MANASIKHELP
16. Which of the following vaccine is **NOT** given at birth?
- (A) BCG (B) OPV (C) Measles (D) Hepatitis B
17. Which of the following vaccine is given at 9 months of age?
- (A) OPV (B) Pentavalent vaccine
(C) Measles (D) Hepatitis B
18. How many doses of Vit-A should an under-five child receive as per National Immunization Schedule?
- (A) 6 (B) 8 (C) 9 (D) 10
19. Which of the following vaccine should **NOT** come in contact with frozen ice packs?
- (A) BCG (B) OPV (C) Measles (D) Hepatitis B
20. What is the mode of transmission of polio?
- (A) Air borne transmission (B) Water borne transmission
(C) Vector borne transmission (D) Direct contact
21. What is the mode of transmission of tuberculosis?
- (A) Air borne transmission (B) Water borne transmission
(C) Vector borne transmission (D) Direct contact

22. What is AEFI?
- (A) Adverse effects following immunization (B) Adverse events following immunization
(C) Adverse effects following intervention (D) Adverse events following intervention
23. What is the colour of the pack for anti-malarial drug for an adult malaria patient in Tripura?
- (A) Yellow (B) Green (C) Red (D) White
24. Which of the following centre is designated for HIV testing?
- (A) PPTCT centre (B) DOTS centre (C) DMC (D) ICTC
25. How many sputum samples should you ask a suspected Tuberculosis patient to give?
- (A) Single sputum sample (B) 2 sputum sample
(C) 3 sputum sample (D) 4 sputum sample
26. Destruction of all forms of microorganisms including bacterial spores is called?
- (A) Disinfection (B) Sterilization (C) Asepsis (D) sanitization
27. Which of the following medicine is available at HWC based Sub centre for management of hypertension?
- (A) Amlodipine (B) Metformin (C) Clotrimazole (D) Aspirin
28. What is the treatment of choice in a case of diarrhoea with some dehydration?
- (A) Home available fluids (B) ORS
(C) IV fluids (D) All of the above
29. What is pandemic?
- (A) Occurrence of number of cases in excess of normal expectancy.
(B) Occurrence of number of cases in excess of normal expectancy over large geographic area.
(C) Continuous presence of a disease in a geographical area
(D) Cases occur irregularly haphazardly from time to time
30. Prevalence of cardiovascular disease in a community means-
- (A) Total number of old cases of cardiovascular disease in a given time frame
(B) Total number of new cases of cardiovascular disease in a given time frame
(C) Total number of new and old cases of cardiovascular disease in a given time frame
(D) None of the above.
31. How do we plot a growth chart?
- (A) Plot Weight of the child in Kg against age in years
(B) Plot Weight of the child in Kg against age in months
(C) Plot Height of the child in Kg against age in years
(D) Plot Height of the child in Kg against age in months

32. Which of the following is a measure of chronic malnutrition in children?
- (A) Weight for age / underweight (B) Height for age /stunting
(C) Weight for height / wasting (D) BMI
33. What is the significance - if the weight of an under-five child falls under yellow category in growth chart?
- (A) Normal weight (B) Underweight
(C) Moderate underweight (D) Severe underweight
34. What is the significance of- if the weight of an under-five child falls under red category in growth chart?
- (A) Normal weight (B) Underweight
(C) Moderate underweight (D) Severe underweight
35. What is exclusive breast feeding?
- (A) Giving only breast milk till 4 months (B) Giving only breast milk till 6 months
(C) Giving breast milk till 9 months (D) Giving only breast milk till 6 months along with water.
36. Breast feeding should be continued in a child for a minimum age of-
- (A) 12 months (B) 18 months (C) 24 months (D) 36 months
37. According to article 24, child employment is prohibited till-
- (A) 12 years (B) 14 years (C) 16 years (D) 18 years
38. Which of the following diseases is covered under IMNCI?
- (A) Acute Respiratory tract infection (B) Diarrhoea
(C) Malaria (D) All of the above
39. As per WHO, what is the age group of Adolescents?
- (A) 10 to 19 years (B) 10 to 18 years
(C) 14 to 18 years (D) 12 to 18 years
40. What is the full form of AFHC related to adolescent health care?
- (A) Adolescent and family health care (B) Adolescent and family health clinic
(C) Adolescent friendly health clinic (D) Adolescent friendly health care
41. By which period of gestation early registration of pregnancy should be ensured?
- (A) By 10 weeks (B) By 12 weeks
(C) By 16 weeks (D) By 18 weeks

42. What is the name of the pregnancy test kit provided by Government of India at health and wellness centers at free of cost for pregnancy testing?
- (A) Nirnay pregnancy test kit (B) Nischay pregnancy test kit
(C) Nirdharan pregnancy test kit (D) Khushi pregnancy test kit
43. How would you calculate the expected date of delivery from the last menstrual period (LMP)?
- (A) By adding 10 months to 1st date of last LMP
(B) By adding 10 months 10 days to 1st date of last LMP
(C) By adding 9 months to 1st date of last LMP
(D) By adding 9 months 7 days to 1st date of last LMP
44. What is prolonged pregnancy?
- (A) Pregnancy extending beyond 37 weeks of gestation
(B) Pregnancy extending beyond 40 weeks of gestation
(C) Pregnancy extending beyond 42 weeks of gestation
(D) Pregnancy extending beyond 45 weeks of gestation
45. How many numbers of antenatal visits should be ensured as minimum for a pregnant woman?
- (A) At least 1 visit (B) Minimum 2 visits
(C) Minimum 3 visits (D) Minimum 4 visits
46. What should be the average weight gain of a women during pregnancy?
- (A) 6-7 Kg (B) 7-9 kg (C) 9-11 kg (D) 11-12 kg
47. Who is considered as 'elderly primi'?
- (A) First time pregnant at ≥ 28 years (B) First time pregnant at ≥ 30 years
(C) First time pregnant at ≥ 32 years (D) First time pregnant at ≥ 34 years
48. Which of the following laboratory investigation are NOT usually available at HWC-based subcentre?
- (A) Haemoglobin estimation (B) Urine test for albumin and sugar
(C) Rapid malaria test (D) HIV testing
49. Within how many hours of birth the placenta should be delivered?
- (A) Within 15 minutes (B) Within 30 minutes
(C) Within 45 minutes (D) Within 60 minutes
50. What is the cut of level of haemoglobin for diagnosing anaemia in pregnant women?
- (A) < 10 mg/dl (B) < 11 mg/dl (C) < 12 mg/dl (D) < 13 mg/dl

51. How many tablets of iron folic acid are to be given to a pregnant women during pregnancy as prophylaxis against anaemia?
- (A) 100 tabs of IFA (B) 150 tabs of IFA
(C) 180 tab of IFA (D) 200 tab of IFA
52. At what blood pressure you are going to consider it a high risk pregnancy?
- (A) A BP of $\geq 120 / \geq 80$ mm Hg (B) A BP of $\geq 130 / \geq 90$ mm Hg
(C) A BP of $\geq 140 / \geq 90$ mm Hg (D) A BP of $\geq 160 / \geq 100$ mm Hg
53. What is low birth weight?
- (A) Birth weight of < 1.5 kg (B) Birth weight of < 2 kg
(C) Birth weight of < 2.5 kg (D) Birth weight of < 3 kg
54. What vaccine is administered during pregnancy?
- (A) 2 doses of TT (B) 2 doses of DT
(C) 2 doses of DPT (D) 2 doses of dT
55. What is neonatal period?
- (A) 7 days (B) 28 days (C) 1 month (D) 2 months
56. Name the pelvic organs from anterior to posterior in relation to pelvic floor.
- (A) Bladder, vagina, uterus, rectum (B) Bladder, uterus, vagina, rectum
(C) Uterus, vagina, bladder, rectum (D) Rectum, bladder, vagina, rectum
57. The graphical record of cervical dilatation and descent of head against duration of labour in hours is called-
- (A) Effacement chart (B) Cervical dilatation chart
(C) Partograph (D) Effacementgraph
58. What rate of dilation of cervix is considered satisfactory beyond 3 cm dilatation in primigravida?
- (A) 0.5 cm / hour (B) 1 cm / hour (C) 1.5 cm/ hour (D) 2 cm / hour
59. What is second stage of labour?
- (A) Starts from 3 cm of dilatation to full dilatation of cervix.
(B) Starts from full dilatation of cervix to rupture of membrane
(C) Starts from full dilatation of cervix to expulsion of fetus.
(D) Starts from expulsion of fetus to expulsion of placenta with its membranes
60. As per MTP act of India, by which period of gestation, pregnancy can be terminated?
- (A) Upto 12 weeks (B) Upto 16 weeks
(C) Upto 20 weeks (D) Upto 24 weeks

61. What is the population covered by a subcentre at plain areas?
 (A) 2000 (B) 3000 (C) 4000 (D) 5000
62. What is the population covered by a subcentre in hilly / tribal areas?
 (A) 2000 (B) 3000 (C) 4000 (D) 5000
63. Type A subcentre is serves all facilities except-
 (A) Registration of pregnancy (B) Antenatal Care
 (C) Conducting deliveries (D) Immunuzation of mother and children
64. Which of the following services is recently added to a HWC based subcentre?
 (A) Screening of NCD (B) Screening for mental health problems
 (C) Screening of Eye and ear problems (D) All of the above
65. Under which scheme new services like Yoga has been added to the HWC based subcentre?
 (A) Swastha bharat scheme (B) Ayushman Bharat scheme
 (C) AYUSH scheme (D) Swastha sachetan scheme
66. What is the primary purpose of stock maintenance in hospitals?
 (A) To increase financial profits
 (B) To reduce the number of patients
 (C) To ensure uninterrupted supply of essential materials
 (D) To monitor hospital staff performances
67. What is the primary document used for issuing stock to hospital departments?
 (A) Stock ledger (B) Indent form
 (C) Invoice (D) Purchase order
68. Which program primarily do funding on health subcentre operation?
 (A) Ayushman Bharat (B) Swachh Bharat Abhiyan
 (C) National Health Mission (D) 15th finance commission
69. Who is the immediate supervisory level officer of Health Sub centre?
 (A) District Nodal officer (B) Sub-district medical officer
 (C) Medical officer in charge of PHC / CHC (D) Community health officer
70. What is the purpose of Key performance indicators in hospitals management?
 (A) To reduce workload (B) To measure efficiency of services
 (C) To focus financial performance (D) All of the above

71. What is the name of the program under which Malaria control and elimination strategies are adopted in India?
- (A) National malaria control program
(B) National anti-Malaria program
(C) National vector borne disease control program
(D) National malaria borne disease control program
72. What are the services/ facilities available under NTEP at HWC based subcentre level?
- (A) Referral of suspected symptomatic cases to nearby DMC
(B) DOTS provision
(C) Documentation and followup
(D) All of the above
73. Name the program under which leprosy patients are given free drugs through HWC based subcentre?
- (A) National leprosy control program (B) National leprosy elimination program
(C) National leprosy eradication program (D) National anti leprosy program
74. What is the new nomenclature (name) given to HWC based subcentre by Government of India?
- (A) Ayushman centre (B) Ayushman Arogya Mandir
(C) Arogya Mandir (D) Ayushman Mandir
75. All of the following non communicable diseases are screened at HWC based subcentre level, except-
- (A) Hypertension (B) Diabetes
(C) Cardiac diseases (D) Cancer
76. Which of the following dimension is **NOT** mentioned in the WHO definition of HEALTH?
- (A) Physical dimension (B) Mental dimension
(C) Spiritual dimension (D) Social dimension
77. Which of the following is **NOT** a behavioural determinant of health?
- (A) Smoking (B) Diet
(C) Socioeconomic condition (D) Physical activity level
78. The health services in any health care system may be of –
- (A) Primary care level (B) Secondary care level
(C) Tertiary care level (D) All of the above
79. The primary health care can be defined as the essential health care based on
- (A) Practical methods.
(B) Scientifically sound technologies
(C) Socially acceptable methods and technologies
(D) All the above.

80. The first contact of individuals with health care system is-
- (A) Primary care level (B) Secondary care level
(C) Tertiary care level (D) All of the above
81. Which of the following centre is called First Referral Unit?
- (A) Primary health centre (B) Community health centre
(C) Sub-divisional hospital (D) District hospital
82. Which of the following is true for a ASHA worker?
- (A) ASHA worker supervises work of Anganwadi workers
(B) ASHA worker conduct safe deliveries
(C) ASHA worker covers a population of 400-800
(D) ASHA worker should be a woman with formal education upto class 8.
83. Which of the following services are given at a Anganwadi centre?
- (A) Health check up (B) Supplementary nutrition.
(C) Preschool education. (D) All of the above
84. Explaining an eligible couple on importance of contraception will involve all **except-**
- (A) Inter personal communication (B) IEC
(C) BCC (D) One way communication.
85. GATHER approach is related to -
- (A) Group dynamics (B) Community organization
(C) Counselling (D) None of these
