Subject: Support for sending SMS alerts for National Deworming Day (NDD) February 2019 round among subscribers.

Madam/Sir

This is with reference to the preparations for the upcoming eighth round of National Deworming Day (NDD) to be held on February 8, 2019 in the state. First of all, State Health & Family Welfare department, Government of Tripura would like to thank the telecom service provider for continued support to Government of Tripura by sending SMS alert on National Deworming Day among JIO subscribers.

As you are aware that Soil Transmitted Helminthes (STH) is a significant public health concern for India. Around 68% children of 1-14 years of age (22 crores) are estimated to be at risk of parasitic intestinal worm infection. Evidence shows that worm loads have been proven to adversely affect the school attendance, concentration and physical and mental development of children. Periodic deworming can reduce the transmission of STH infection. With an aim to intensify efforts towards the STH control, Tripura will implement mass deworming of children between 1 to 19 years on February 8, 2019 followed by a mop-up day on February 14, 2019 for left out children.

For successful implementation of NDD it is important that the community is well aware and obtains maximum benefits from the campaign. Hence, it is requested to kindly support the state in disseminating the following Bengali message to your subscribers. Details of the SMS and expected dates are given below:
